DETERMINING WHAT WHITE & HUE RING YOU SHOULD ORDER

Narrow / Band Rings should fit snugly at the base of the finger but also wide enough to fit the widest part of the finger. (e.g.: Knuckle)

Wide Rings (6 mm + wide) should be worn a bit looser than narrow / band rings. It is recommended to add one size to accommodate for extra width.

Please Note: If your knuckle is larger than the base of your finger

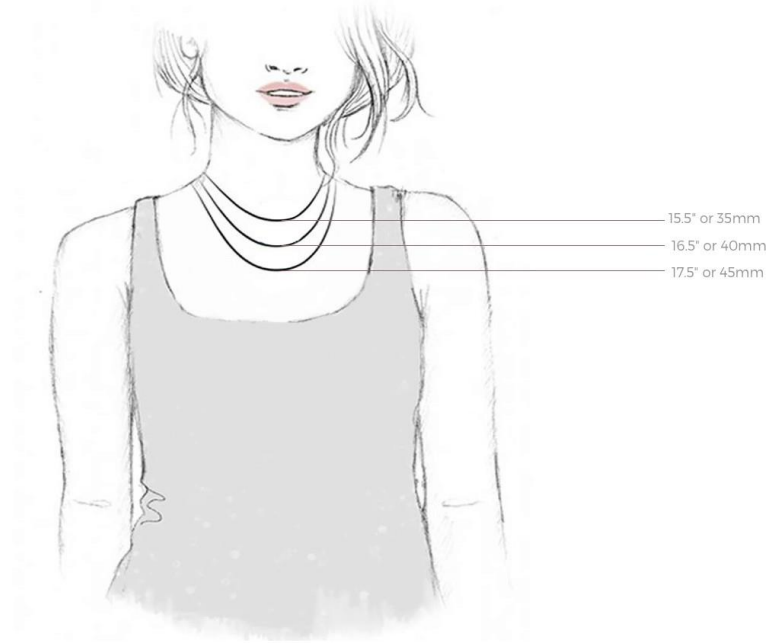

- Measure your knuckle size
- Measure your Ring Size i.e base of the finger
- Pick a size between the Two

A FEW NOTES TO CONSIDER:---

1. Measure your fingers at the end of the day when they're at their largest.
2. Cold weather can shrink your fingers up to half a size, so make sure they're warm.
3. Lastly, alcohol and salt can make your fingers swell, so refrain from measuring them after cocktails and appetizers.
